FORCE PUMPS,

An excellent article for Mines, Breweries, Railroad Water Stations, Factories, Plantations, Dwelling Houses, Hotels, Steamboats, Ships,

AND ALL OTHER PLACES WHERE A

CONSTANT STREAM OF WATER IS REQUIRED.

Description of Force Pumps.—The two inch Cylinder Pumps will discharge from 15 to 20 gallons per minute, and force it from 30 to 40 feet. These are calculated for dwelling houses, garden engines, and family purposes.

The three inch cylinder will discharge from 20 to 30 gallons per minute, and force it from 50 to 75 feet. This size discharges one and a quarter inch stream of water. These Pumps can be used with equal effect with hot liquids.

The four inch cylinder will discharge from 40 to 50 gallons per minute, and force it from 75 to 125 feet. This size discharges a two inch stream of water, and can be worked with man, horse, water or steam power, or with a stroke of piston from three to eight inches.

The six inch cylinder will discharge a three and a half inch stream of water. This size is admirably adapted for fire engines, and can be worked from four to ten inch stroke of piston.

The eight inch cylinder will discharge a four and a half inch stream of water, and is calculated to pump about 200 gallons per minute, and can be worked with horse, water or steam power, or with a stroke of piston from 7 to 12 inches.

These Pumps have been tested, and give general satisfaction.

THE BROOKLYN STREET DIRECTORY,

OR,

GUIDE FOR 1850 & 1851.

(*Corrected May* 1st, 1850.)

Showing the commencement, position, and termination of each street, with the junctions and crossings of the intersecting streets, also the number of the house at the corner of each of the streets.

Where there is no house on the corner, or where the corner house fronts on the crossing street, the number of the house nearest the corner is given. It must be observed that in a considerable portion of the streets, the houses are entirely unnumbered. In those streets the Alphabetical Directory directs you to which of the crossing streets the house you are looking for is nearest situated.

For the information of strangers it many be necessary to add, that the odd numbers are invariably on the left hand from the commencement of each street.

Mrs. TEMPLE HALL, Associate Prin'l	M'elle TRIGAUT, " " French. 5

This Institution is organized in three departments: PRIMARY, JUNIOR, and SENIOR. The course of study in each is planned with special reference to a solid, useful, and symmetrical education.

The studies of the Primary Department are strictly elementary.

The Junior Department comprises the studies of a substantial English Education, preparatory to the higher Scientific, and Belles Lettres, course of the Senior Department.

The Senior Department embraces a thorough course of Mathematics, Natural Mental, and Moral Philosophy, and Belles Lettres.

The classification in each department is determined by proficiency, rather than age.

The course of instruction is essentially the same as that pursued at the Mt. Holyoke Seminary, the principal being a graduate of that Institution.

The aim of the Principals will be to conduct their Pupils through a systematic course of studies, affording at the same time, a progressive knowledge, and a progressive discipline of the mind. Strict regard will be paid to Morals, Principles, and Manners. The location is pleasant, retired, and salubrious. The Academic Year consists of four terms of eleven weeks each, commencing on the first Wednesday in September, and closing in July.

TERMS FOR BOARDERS,

The entire English course, with board, including fuel, lights, and Washing, $200 per annum, payable quarterly in advance. The pupils are expected to be furnished with towels, table napkins, silver fork, desert and tea spoon. Every article of clothing should be distinctly marked.
